Application Number	Not Found	10293477
Extraction Status	Success	Success

## Final Conclusion:

Not Found | 10293477 |  
| Extraction Status | Success | Success |  
• Final Conclusion:\*\*

- \*\*Key Similarities:\*\*** The North and South boundaries reference Plot numbers 262 and 264 respectively in both documents. Owner names "A. Mansoor Ahmed" and "M. Ramesh" appear in both documents, although with variations in the full list of owners.
- \*\*Key Discrepancies:\*\*** The East and West boundaries differ significantly. The Property Address is entirely different between the documents. Dimensions/Area is "Not Found" in the Sale Deed.pdf, while it is provided in the Legal Report.pdf. The list of owners is significantly different, with several names appearing only in one document. Application Number is only present in the Legal Report.pdf.
- \*\*Overall Assessment:\*\*** Likely Different Properties. While the North and South boundaries reference similar plot numbers, the significant differences in Property Address, East/West boundaries, the extensive variation in owner names, and the missing area data in one document suggest the documents likely pertain to different properties.
